To: City of Hamilton
Ravalli County
Bitter Root Land Trust

Hello,

My name is Linda Dworak. I have lived in Ravalli County since 1994 and reside just west of Hamilton. I am interested in caring for our wildlife, ensuring the connection of landscapes needed for movement, food, security and health for both people and animals.

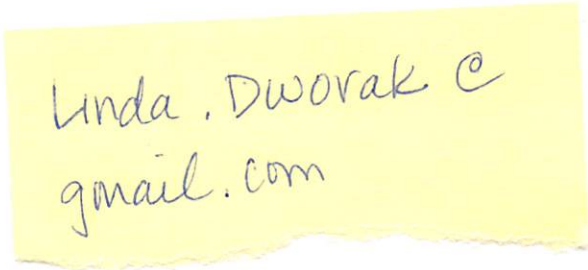

As our area is growing in population and the landscape is being developed, I would like to engage with others to do what is needed to define, retain and restore vital areas. Vital areas are locations which sustain the health and integrity of place. These areas include the interface between city limits and county, natural areas, agriculture, transportation, recreation, utility structures, fencing, housing, streams and rivers, conservation areas, and federal/state lands.

Would you please tell me if there is currently a group coordinating such an effort? Also, would you please tell me who is involved for Hamilton City and Ravalli County in oversight regarding these issues?

Thank you so much!
