October 24, 2021

To the Ravalli County Public Health Board:

I am writing in support of Carol Calderwood, Public Health Officer, and Tiffany Webber, Public Health Nurse. These two have served the people of Ravalli County well during the COVID-19 pandemic. They have recommended actions and treatments that are supported by scientific data and recommended by the Federal Government agencies FDA and CDC. They have refrained from recommending actions and treatments unsupported by evidence, which may not work and may also have negative and/or unknown side effects. Nurse Webber also engaged in tireless efforts to trace the contacts of individuals with known cases of COVID-19, thereby reducing the spread of this virus, which has killed over 700,000 Americans (including at least 65 in Ravalli County). Our Department of Public Health should be commended for doing a good job in difficult times.

Sincerely,  
Kathryn Tilly  
Hamilton, Montana
