Subject: [EXTERNAL] Meilke conservation easement

Good morning,

I am writing you to offer my support for Corola Meilkes potential conservation easement. The continuity of easements in the Burnt fork area is exciting and will leave a legacy of agricultural use in place for perpetuity. This easement fits in with Steve Peckinpaugh, Farrell/ Kerslake and Griffins easements very well, creating a large swath of unobstructed agricultural production.

We give our strongest support for this easement and hope you will see its importance as well.

Sincerely,

Dan and Sari Kerslake
