Hello, We'd like to firmly express our opposition to the use of the voting machines. We feel the only accurate way to vote is paper ballots and the only mail in ballots would be for absentee voting. In that Ravalli county received monies from a private source for the voting machines, that in itself, violates private entities having access to Montanas (Ravalli Counties) voting systems. We are not bending on this issue and demand action to remove these machines from our county. Our country has, on all governmental levels, moved so completely away from the constitution that, our democratic republic form of government is in jeopardy. We cannot continue to support politicians that are not in full compliance with our constitution(s). We would also like to know what are the commissioners individual opinions of the 10th amendment in our Constitution.

Thank you all and we look forward to your response.
