Subject: [EXTERNAL] Quality of life

I have to get this off my chest. Who in Montana wants to live as close to each other as the houses in victor that are being built This does not depict the quality of life that people want in Montana. We thought this was affordable housing site but unless you are able to work multiple jobs these houses are out of reach.

Just because there is vacant land doesn't mean you have to build on it We are seeing where we live that the elk and deer are being moved out of the land that had been theirs just so more trees can be taken down and houses built It saddens us to see this beautiful valley build houses that residents can't afford and new people coming that do t appreciate the trees and other landscape At this rate Montana will run out of water and it's beauty Thank you for understanding our concerns
