**Subject:** [EXTERNAL] Klements Lane option

My name is Jim Duffalo at 5472 Klements Lane. I attended the March 30 meeting and was unable to speak before I had to leave at 11:00am. My thought on this issue was to divide the Klements repave in two. Pave the worst and highest traffic section starting at east side North to the halfway point this year then the second section North to the end next year. This would only be about half or a mile each time leaving a half mile of paving each year for some of the other shorter road repairs. Like the small subdivision Dave spoke about in the meeting. The camas road sounded to me that there should be some stream reclamation done prior to the road repair to insure a lasting road repair in the future. I had spoke with Greg last week and would like to speak with him again once this email is read please give me a call at 406-239-0747 thanks again Jim
