Subject: [EXTERNAL] Ravalli County Voter Election Integrity Concerns...

Dear Commissioner Burrows,

Thank you for meeting with us citizens of Ravalli Co. (RC) on 4/19/22, where you listened to our voiced election integrity concerns and answered questions.

After being informed and watching videos of numerous voting fraud violations being committed across the country, we strongly encourage the Commissioners of RC to demand for an audit of the 2020 General Election.

We believe the voting machines and/or software has been infiltrated and manipulated to sway votes. We would like to see a "Hand Count" of the ballots with-out electronic machines involved, no matter how long the process takes. I personally will volunteer my time to help count the votes and/or help oversee the process of helping to secure the actual vote count...no matter which party it is for. We just want fair and honest elections verified using VOTER ID!!

If this was the most secure election in the United States history...lets do an audit to prove it!

Sincerely,

A Concerned Ravalli County Citizen,

Ronnie Rosa

Here's a woman dropping off stacks of mail-in ballots in a drop box in Detroit before she realizes they aren't signed.

<https://twitter.com/realLizUSA/status/1517124616149417984>

Here's a man just walking around with stacks and stacks of blank ballots, unsupervised.

<https://twitter.com/realLizUSA/status/1517154176899313668>

Here is a postal worker who made four stops within an hour to the same drop box -- not a mail box on the day before the 2020 Election Her final visit with a big stack of ballots she came in a different vehicle.
