Subject: [EXTERNAL] Election Integrity

Dear Commissioners,

First of all, I would like to thank each of you for representing our valley and taking the time to read my email and address my concerns.

It's no surprise to you all, nor does it come as first time news, that there are many concerns by the citizens of Ravalli County. One of those concerns being election integrity. During our 2020 presidential election, there posed many concerns and problems with the accuracy of the results. It's quite obvious from everything that took place that there was nation wide fraud. Even a child can see and understand what was done to the American people, so Commissioners, there's no need to ever deny that fraud existed. It happened all over our country and in our own state, Montana. It's very sad to see how our great state is being sold out to the elite. It's clear to see that all the expansions in our County are the result of the "ole infamous carrot dangle." "The ole carrot dangle", you ask? Yes, Commissioners, money! According to God's Word, "the love of money is the root of all evil." Do you believe in our Creator and eternal Judge? One day we (that means everyone who was ever born) will give an account for every word spoken and every deed done, regardless if it was seen by man or not. God sees and knows all and one day, very soon, we will all sit in the judgment seat and explain our lives to our Creator and Most Righteous.

So with that being said, how is the moral compass of each of you? Are you willing to uphold your oath of office and serve with truth, integrity, morality and justice? Or are you all going to follow the "dangling carrot"? Because we all know that Ravalli Country willingly applied for, received and spent funds "granted" by CTCL, funds from Mark Zuckerberg, CEO of Facebook, left wing extremist, free speech suppressor, Marxist, communist, huge contributor to the Democratic and left wing agenda who was/is in opposition of Donald Trump and his re-election campaign. Zuckerberg had a role in buying our elections and it doesn't take a rocket scientist to figure that out.

Regina stated, at Tuesday's meeting, that when she applied for the "grant", she had "no idea" where the funds came from, she didn't research it. (Really Regina? How stupid do you think we are?) She went on to say that she was only thinking of the money (again the ole carrot dangle) and how she could "advertise" the election more. Going on to say that she didn't know who Mark Zuckerberg is and that we will never see her on Facebook. But then later she explains how some of the funds were spent and how she took out ads on Facebook to promote the election, how convenient. Due to the discontent in the room in regards to accepting CTCL funds, which is a huge conflict of interest, Regina PROMISED to never accept grant money again. Will she keep her promise? Only time will tell.

Also, according to data gathered by the Montana Election Integrity Project, there is unequivocal proof and evidence of state wide election fraud in our 2020 Presidential election. And Ravalli County was suspect for fraud also. Deeds done in the dark always have a way of coming to the light, it's just a matter of time. Our state was targeted for fraud and we must stop it now! Dead in its tracks! And you, Commissioners, must do what's morally right and protect our elections from any further and future fraud!! Because if we don't have secure and trust worthy elections, we have no state and no country.

Don't allow our great state to be bought out! Don't allow yourselves to be bought out! Life is more than money and we have to preserve our state for future generations. If you sit idly by and do nothing while following the dangling carrot, you are all to blame and part of the problem. What will you tell your children and grandchildren? "Sorry kids, money was more important to me than your freedom." Great answer Pops!

In closing, because I've rambled long enough, we need election integrity in every one of our elections. Additional measures need to be put forth so there is a fair and accurate count of each vote therefore eliminating every chance of fraud.

We need to act now to completely secure our elections because if we don't, we will lose our country to communism. And if you think that could never happen in the USA, you're living under a rock. Lastly, do you gentlemen have the testicular fortitude to stand up and do what's right in the face of adversity? Be bold and brave like our forefathers? Do what's right gentlemen, stand with election integrity!!!!

Again, thank you for your time and consideration and for reading my email. Have a wonderful day and remember, we all will meet our Creator someday. We must strive to do His Will and what's morally and ethically correct. (In case any of you do not believe there is a God, you must believe in morals and ethics and doing what's right).

Sincerely,

Raena Criner
