Subject: [EXTERNAL] Election Integrity

Dear Commissioners,

I am writing to you about our election integrity. We cannot ignore the fraud that we had in our county just because we had a red wave. If fraud exists, and we do nothing about it, we can be manipulated or flipped at any time.

I would really like for us to go back to the 2020 election and do an audit to determine the amount and how the fraud happened. I do understand that we are up against some challenges in order to do that. With that being said, we need to make sure that no fraud happens from this point forward.

All elected officials work for the public and take an oath to uphold the Constitution. In your position, I am asking you to demand integrity in our elections and do what is necessary to make sure that we have fair and honest elections.

In order to make that happen, I am asking for an additional layer of protection by doing an extra random audit of our county prior to sealing the ballots. This would also help in the area of confirming election results for down ballot races, which currently are not audited.

If you would like to discuss this, please contact me.
