**Subject:** [EXTERNAL] Election Integrity

April 21, 2022

Ravalli County Commissioners

Hamilton, Mt

The State of Montana and our counties have numerous irregularities that cause concern for fair and honest elections. The incompetence, or worse yet, possible malpractice are issues that should NEVER be a normal activity in our counties, our state or our country if we are to believe that our votes actually count.

There are concerns from voters of deleted videos for our election of federal positions, which should have been protected for any sort of discrepancies for 22 months, as well as additional boxes mysteriously appearing, and ballots which didn't have signature envelopes as the count of ballots exceeded the signature envelopes. This should NEVER happen. Why was this just ignored by our Clerks and Recorders, our County Commissioners, as well as the Secretary of State in Montana (who by the way received more votes than the presidential candidates and governors)? Why aren't you as County Commissioners requiring a forensic audit?

Also, who received the monies from Mark Zuckerberg for the mail in voting and where is this paper trail? We would like to know where that money went to as well. That information should be available to the voters of our state.

Based on the concerns that we have in our county it is our conclusion that the voters in each county MUST be responsible for election integrity. We must have paper ballots with voter ID and proof of citizenship and they must be hand counted. The voting machines must never be used again to ensure accuracy.

We believe that our County Commissioners are able to ensure that the legacy of fair and honest elections is possible for all of our great heritage. Our children and grandchildren must have an equal opportunity for their voice and candidates to be elected without the questions of whether the elections were honest and fair or not. This is the mountain that we all MUST stand and fight on to make sure that there is honesty and integrity for all elections.

We hope that each you have the courage to take a stand for election integrity and fulfill your obligation as our elected officials in our county and revert back to paper ballots that are hand counted with trained community volunteers.
