**Subject:** [EXTERNAL] Election Integrity

**As a citizen of Ravalli County and The Great State Of Montana I feel we should be heard! Being some of our elected officials don't want a special session to address this problem. Ballots should be hand counted BEFORE the box is sealed. I would like to see all ballots counted then put thru the machines or counted after they have been put thru the machines but I know that is a big ask. We should have additional checks and balances we as a county should be able before the ballots are sealed to double check precincts and races in our own county not just on a state or federal level. Maybe decide before elections what race in our county and precincts we will decide to count. There should be no additional cost to the tax payer; volunteers are already trained and can handle the process. We have a right to have fair and honest elections.**
