Cc: Ravalli County Commissioners Office
Subject: [EXTERNAL] Commission era meeting with Stand Together for Freedom

Commissioner Burrows,

THE VOTING MACHINES HAVE TO GO!!

As long as the voting machines are being used, As long as the early voting is allowed, As long as the mail in voting is promoted and As long as there is no real election audit being done...

As long as any of these things are permitted to conflict the voting system there will continue to be election fraud that will vote into office the Establishment selected candidates that are being controlled just like you and the other commissioners. At least you will listen and talk to your constituents, even if you only do a half hearted job of following through with what is needed.

Please dignify yourself and start representing, with boldness, the people who voted you into office. We are ready to vote for a ranch hand that has more moxie than you and will not be afraid to rock the apple cart and shake up some people to let them know things need to revert back to the ideals and principles on which our nation was founded:

Honesty
Integrity
Honor
Truth and
Christianity

It does not matter what the establishment procedure has been in the past.

Number one, voting needs to be done on Voting Day.
(If the president can inaugurate a Juneteenth holiday, maybe we should introduce a Voting Day Holiday) No voting machines Absentee voting only for approved excuses.
No vote harvesting

We, the people, want the votes to be cast on authenticated tamper proof paper ballots that can not be forged.
Count the votes and tabulate them by hand in each precinct.
The ballots and a copy of the paper tabulation form should be sealed in a real tamper proof container.
The sealed boxes and the original paper tabulation delivered by a two party courier to the county office.
The precinct tabulations are tabulated into the County paper tabulation form.
The sealed boxes and the County tabulation forms delivered by a two party courier to the State elections office.
All of the county tabulations are tabulated into the State total.
The storage of the sealed ballots and all of the tabulation forms need to be in a secure, locked and guarded location for preservation of the integrity of the election and made available for auditing.
The final State tabulation can then be transferred and entered into the National election tabulation.

That is a lot of steps and difficult for government officials to comprehend, but ask your 4th grader for the explanation, they will tell you.

Regards,
Charles Jordet
