**Subject:** [EXTERNAL] National election corruption

Dear Commissioners,

The planned leak of the Supreme Court ruling on Roe v. Wade was purposely scheduled to be released in conjunction with the release of Dinesh D'Souza's expose movie, "2,000 Mules" about the election fraud in the 2020 election. The purpose is to distract attention from the truth of the massive voter fraud perpetrated on the American people by the leftist Marxist socialists who are running the country from the back room!

The voter fraud and the election results for the 2020 election must be decertified and the voting machines must be eliminated before we have another election, otherwise this nation is dust and there will never be a fair, honest election again.

The voting machines is just the tip of the ice berg of the total election fraud, in conjunction with using psychological warfare to get people to give up their rights and surrender to an authoritarian government. (See link below of Brannon Howes Frank Speech interview with Karan Kingston)

There is so much corruption in this nation it is beyond comprehension how America could collapse to this state of oligarchy overload rule in such a short period of time. It has been building up for a long time and the dam has finally broken and we are being swept away into the slough of despair.

Charles
