**Subject:** [EXTERNAL] Election Integrity

Mr. Burrows, Mr. Chilcott, and Mr. Huls,

I wanted to contact you regarding making sure our elections and the process is fair, honest and of the highest integrity. We all know that this is one of the most significant issues that we face in this nation. We also know, because of the facts that have been investigated nation-wide, that this is huge issue because of what happened in the 2020 Presidential election.

First of all, I believe that all election ballots need to be hand counted before the ballot box is sealed. This needs to be done in order to ensure proper checks and balances are in place to protect the integrity of this coming primary and mid-term elections, . It also must be done to ensure ALL future elections are fair and honest. There are numerous Ravalli County residents that would volunteer at no cost to Ravalli County to provide the needed oversight by WE THE PEOPLE. ANY person holding an elected office is to serve the PEOPLE and uphold the Constitution of the United State (as written by our fore-fathers) and the Constitution of the State of Montana. We also must get away from voting machines. Any electronic technology can be tampered with so Ravalli County needs to revisit the use of these machines and demand that only paper ballots are used.

The bottom line is I demand that Ravalli County sets a high standard for election integrity that other counties in the State of Montana and across this nation can look up to. .

Thank you for your time and consideration in upholding honest and fair elections. It is vital to protect and preserve the freedom and liberties expressed in the Constitution of the United States of America.

Byron Bonney  
Stevensville, MT
