Subject: [EXTERNAL] Florence "only" light issue

Morning, I have addressed this issue years ago to MDT, but thought I would reach out to you 3 as well. Not sure if you are able to direct me and/or provide answers.

One issue is a safety issue, the other is just an annoyance:)

1. At the light in Florence, coming down Holloway Lane towards the light and those wanting to make a left turning north onto Hwy 93....an arrow for those folks would be very beneficial. It is a collision waiting to happen, especially at peak hours.

2. The annoyance is the railroad tracks. They are so rough. Why can't MRL remove and/or replace the loose areas that are a nuisance?

Thanks for listening. Direct me if I need to address this with someone else:)
