**Subject:** Ravalli County Airport

A few years ago the majority of the citizens in Ravalli County voted against expanding the airport, yet here we are again with with these people trying to push it through.

We have a perfectly good airport 45 miles away, our valley is narrow and small and can't sustain jet aircraft with airpollution and noise pollution, as it is the airfield now is beginning to look like an industrial park. It will not offer new jobs to the local people other than service or minimum wage jobs.

Please do not cater to these few who seem determined to ruin this beautiful little valley, maybe they should take the first jet back from whence they came..
