I profoundly protest the expansion of the runway at the Ravalli County Airport. In recent years the FAA has determined what needed to be done to increase the safety of this runway without expanding it. Expanding the runway will serve a very select few residents of this county who obviously have political sway with our commissioners. Most of the residents, property owners & even the Chamber of Commerce can see only detrimental affects if the runway is expanded.

I urge you consider the multitude of facts that will be presented in relation to this highly contested issue & then make the obvious decision to deny any expansion of the runway at Ravalli County Airport.

Most sincerely,
