Dear Mr. Norderud:

We are writing to express our concerns about expansion of the airport in Hamilton, Montana. The residents of Ravalli County should have the opportunity to vote on such a significant change to our area. Not being familiar with the laws of Montana, I'm not sure that the County Commissioners have the authority to undertake such an expensive project without the residents of the county having a voice in paying to maintain such an airport. Additionally, the noise and air pollution would be very detrimental in this valley, particularly when we are experiencing an inversion.

Please note that we are against the expansion of the airport in Hamilton, Montana.

Sincerely,

Ray and Suzanne Williams
