What is an Interagency Governmental Working Group?

We envision that this group will be comprised of key point of contact from local, state, other federal Agencies, and Tribal governments interested in the Lolo plan revision. We anticipate gathering with this group virtually

each quarter during the revision process. The purpose of meetings will be to update you on the status of the revision process and provide a platform for dialogue across agencies. We hope this dialogue will help inform your input to the process, should you choose to provide it; assist you in sharing information with your staff, collaborators, and partners; and facilitate an all-lands approach that seeks consistency in land management objectives across boundaries.

Thank you for your interest in the Lolo National Forest Land Management Plan Revision.
