Subject: [EXTERNAL] YOU ARE INVITED - Montana Wildlife & Transportation Partnership Webinars

THE **OUTSIDE** IS IN US ALL.

Please join the Montana Wildlife and Transportation Partnership (MWTP) for 2 upcoming webinars about new resources and opportunities for addressing wildlife and transportation challenges in Montana.

- **Webinar 1: MWTP Planning Tool - Monday, April 24th 4-6 pm MDT**
- **Webinar 2: MWTP Project Program - Thursday, April 27th 4-6 pm MDT**

Montana has one of the nation's highest wildlife-vehicle collisions per capita. Each year, MDT Maintenance crews collect more than 6,000 wildlife animal carcasses and 10% of all reported crashes in Montana are wildlife-related. These collisions usually result in the death of the animal, and cause property damage and sometimes personal injury or even fatalities. Busy highways can also impede wildlife movements. After years of planning, the MWTP now provides a new innovative Planning Tool and statewide Project Program to inform and implement collaborative work seeking to prevent these tragic and costly crashes and increase connectivity for Montana wildlife.

In the webinars, you will hear from MWTP partners about the goals of the Partnership, how to effectively use the new Planning Tool, and new opportunities for advancing wildlife accommodation projects on Montana highways through our Project Program.

No registration is necessary. Access the webinars through the Zoom links below:
