Subject: Ravalli County Airport

Please do NOT go forward with the latest airport plans for Ravalli County. A few years ago, we had a plan in place to simply make the airport safer and instead, our commissioners are trying to commit us to spending seven million dollars. We cannot do this. Additionally, the loud aircraft will go right over our heads here in Corvallis and I am opposed to that noise.

Our airport, with a few safety enhancements is adequate and spending all of this money so that some larger jets can come in is unacceptable. My understanding is that this will never become a commercial airport and it is just made longer for larger personal aircraft. We just found out that today is the deadline for comments and we are very distraught. Please do not make us live with a larger airport that services only the few when the rest of us will live with the noise and pollution.

The biggest proponents of this expansion are commissioners who garnered about 400 votes this primary. We do not like the things that they have done, especially the way they kicked the public out of the process regarding this airport, thus we voted them out. They are trying to shove this down our throats before they leave.

Please do NOT go forward with this proposal.

Thank you.

Sincerely yours,
