**Subject:** Ravalli County Airport expansion

Mr. Norderud and Members of the Ravalli County Commission,

I am a resident of Ravalli County and am writing to express my opposition to the expansion of the airport in Hamilton. This issue needs to be included on the November ballot and be decided by all of the residents of Ravalli County. Two of the current county commissioners were not re-elected which is a rather significant statement of the citizens opinion of their leadership and decision making. For those commissioners, whose ideas were rejected by a huge majority of voters, to jam this decision through at the end of their terms is shoddy politics and does not consider the opinion of county residents. Please allow the residents of the valley the opportunity to participate in making decisions about the future of the valley. Until we are accorded more time and meetings for comments or the issue is placed on the November ballot, I cannot support any expansion of the airport.

Sincerely,

Peggy Riemer
