June 10, 2023

To the Ravalli County Commissioners,

First- thank you for your time, effort, and patience during the June meeting at the fairgrounds. And for the many hours you put in as commissioners. It is not an easy job.

The huge turn out of folks that came to the meeting makes a strong statement about how Ravalli County feels about election fraud and getting rid of voting machines. Although the machines are only part of the fraud, it is a place to start. Just quit using the voting or counting machine at all. This is not something new, it is just going back to the way it was always done before. And it worked.

Ask yourself if there is any reason we can not do this? You represent us “we the people,” and “we, the people” have spoken. Thank you so very much for listening.

Grace Wilson
Stevensville

to the County Commissioners

I just want you to know that I have been thinking about the time I spent in the past few years for the County Commissioners. It is not an easy job.

The County Commissioners have done a great job in the past few years. They have been very busy and have done a lot of good work. I am proud of them and of the County Commissioners. Although the County Commissioners have been very busy, they have not forgotten about the people. They have always been there for the people and have always done a good job.

Thank you very much for listening to the people. I am proud of you and of the County Commissioners. I am proud of the people and of the County Commissioners.

Thank you
 all the best
