Good Day Gentlemen,

I attended the Ravalli County special meeting at the Fairgrounds the other evening.

The many points and evidence presented proved very interesting. The recommendation for paper ballots is something many people indicated they want.

Here's my take. You commissioners can prove the information divulged at the meeting to be true or false. You can do this very simply. Go to paper ballots and determine if they disprove the "machine facts," graphs and numbers shown to the massive crowd. Or, would paper ballots duplicate what was produced at the meeting?

You would be a shining example for all Montana if either conclusion is reached. I urge you to take the bold step and conduct paper ballot voting for the next several elections. Involve the presenters and other citizens as you move forward.

Sincerely,

Jim Kalkofen
