Subject: attention: Ravalli County Airport

The benefit of the proposed Ravalli County Airport expansion would accrue to fewer than 1% of the County's inhabitants but the 10% of total cost would be paid for by all of us. This is a flagrant misuse of taxpayers' funds; County projects should not be used to make it possible for the planes owned/used by the very few to fly here when there is a perfectly good runway in Missoula.

Please register our strenuous objection to the Airport expansion.

Mimi and Len Sauer
