Riverside
CONTRACTING, INC.

PROJECT OVERVIEW

The Montana Department of Transportation (MDT) and Riverside Contracting, Inc. will improve a section of US Highway 93 (US 93) and an adjacent section of the Bitterroot Trail in Ravalli County. The project begins a half mile north of the intersection with Bear Creek Road and extends approximately two miles north, ending south of Victor. Construction is anticipated to start mid-July and last approximately one week with striping to follow.

PROJECT PURPOSE

The project will resurface the existing roadway to enhance safety features, provide a smoother driving surface, and reduce long-term maintenance costs. Work includes crack seal, seal and cover (chip seal), fog seal, and new pavement markers. The Bitterroot Trail shared-use path will receive a crack seal and fog seal.

TRAFFIC CONTROL AND CLOSURES

During roadway construction, traffic control will be in place with single lane closures. Expect brief traffic delays. The trail will be closed during construction. Cyclists and pedestrians are advised to plan ahead and use alternate routes during the closure.
