**Subject:** Attn: Ravalli County Airport

To Whom It May Concern:

I fly in Montana in a general aviation airplane. I have property at the Seeley Lake Airport and fly from Boise ID to Seeley Lake. The Ravalli County Airport is a major safety factor to me along that route. The beautiful Montana and Idaho terrain leaves very few places to land for fuel or in an emergency. Public access airports like Ravalli County are essential to safety and commerce.

Ravalli County is a major factor in the overall economic well being of the Hamilton area. Airports bring people and their money to communities. Improving airport safety and serviceability are essential to maintaining the economic input of the airport. I urge you to participate in improving Ravalli County so that it will be able to serve general aviation for years to come.

Warm regards,

Ron Talcott
