**Subject:** Ravalli County Airport improvements

To Whom It May Concern:

Ravalli County Airport needs to be improved. Alternative 4B provides for future growth of the airport plus provides 100% safety for those aircraft using the airport today. Those who are trying to discourage airport improvement are selfish and self centered. They care about themselves only and not the safety or welfare of others.

Ravalli County Airport is one of the busiest GA airports in Montana . The airport supports jobs and helps with the growth of the economy but it has reached it limits. The airport needs room to expand. The airport should welcome people into the valley and not discourage them by having an unsafe runway length or no room to park their aircraft or no room to build a large hangar.

Flying is freedom.
