Ravalli County Commissioners

--	--	--	--	--

Sirs:

We wish to bring to your attention the fact that we are opposed to the new airport expansion that the county commission is trying to impose on those of us that are affected by the noise and pollution from such and expansion and is a HUGE public expense for a very small group of people that use this airport

We have a family member that uses this air port and he let us know that there is not a safety issue with small private planes. This family member is a commercial pilot as well as having training in the Military and for back country flying.

Since the wealthy visitors want to expand the airport for their corporate Jets they can well use the airport in Missoula 50 miles away and commute to the valley like 99% of the citizens of the bitterroot valley are doing now.

We resent the fact that we cannot have a cup of coffee or lunch on our deck in nice weather with the selfish group that is making the air space their play ground.

This expansion should be put to a public vote this November and not approved by 3 or 5 people in the county offices.
