Subject: Ravalli county airport

Ladies/Gentleman, I'm writing about the Ravalli county airport expansion. Weve all heard the pros and cons of expanding the airport but I want to tell you how the airport effects my family right now. My husband works there for Choice Aviation. His job their enables us to live in the Bitterroot valley. Our kids go to Corvallis Middle school. We shop in Hamilton and 95% of our economic activity is in the Bitterroot valley. Our 11 year old son got a free flight around the valley and loves the airport. We all know that the expansion of the airport will be much safer for the valley and is needed during fire season. Come see the airport during fire season and you will see what I mean. We urge you to consider the impact that expanding the airport will have on the valley. I know you will never make everyone happy and some people oppose the expansion. You cant move to the Bitterroot valley and expect it to stay the same. Change is a constant in life. This change is good for us all. Thank you. Christina
