**Subject:** Ravalli County Airport

I have lived in Ravalli County over 50 years and for the better part of that time, I have been actively involved in efforts to improve the local Hamilton airport-all to no avail or delays. I have felt the past year or so that the opportunity had finally come to see these efforts pay off. Now yet another delay by a group, who claim to represent the majority of county citizens, has reared their ugly heads and threaten to put more fraudulent items on their agenda with the sole reason for putting off final approval another month and, who knows, perhaps more delays. This last attempt is their hope of stalling the decision until a more favorable political climate ensues next year, I'm sure. I am asking your help in making sure their wish does not happen. Get the job done in favor of progress for all the many reasons that have been presented over all these years-it is time to get the matter settled once and for all!
