Subject: Ravalli county airport expansion

I am a Hamilton residence and have been against the airport expansion for many years. We circulated petitions and had a lot of community support to NOT expand the airport. The commissioners at that time took the advice of the people and denied expansion of the airport.

The next commissioners who took office totally ignored the wishes of the people and reversed the decisions of the previous commissioners. Those who have done this, have been voted out of office, but they still have power for a few more months. The vote should have been given to the people for this, but these commissioners also took that vote away from the people.

The expansion of this airport would benefit less than 1% of the people of this county. The rich and famous who fly in on weekends to live at the Stockfarm are the main beneficiaries of this airport expansion. The regular citizens will have to put up with more noise, more pollution, and probably more taxes. There is nothing physically wrong with the airport we now have, and I just wanted to voice my opinion against expansion.

Thank you. Karen Heller, 321 Morning Sky Dr., Hamilton, MT Sent from my iPad
