Subject: Ravalli County Airport Upgrades

Dear Folks concerned with Ravalli County Airport:

I am a Montana Pilot, an Aviation Business Owner and a Flight Instructor.

I am writing in support of the Ravalli County Airport Upgrades.

A safe airport benefits the community.

The Ravalli County Airport adds to the local economy bringing people from in state and out of state.

Many visitors arriving by air spend about \$70 per day in the area.

I was asked to flight instruct a student pilot at the Ravalli airport this spring. I spent money for lodging and eating in the community. I also noticed how vital this airport is to the valley. Many flight operations were going on the days that I was flight instructing.

Thank you for supporting a vital economic community asset by supporting and upgrading a local airport.

Best regards,
Jeanne MacPherson
