**Subject:** Hamilton Airport

I began my flying over 25 years ago, flying out of the Stevens ville airport. I have flown into Hamilton on many occasions and have found it to be one of my favorite airports. for safety reasons the air port needs to be upgraded. Safety for pilots and or the residences south of the airport. It is unfortunate that people were aloud to build there it the first place. but that is another matter. A move to the east and lengthening the runway is a must.  
Yours in flying Douglas Vulcan
