Subject: Ravalli County Airport

Gentlemen,

During this comment period for the Ravalli County airport improvements I would like to address the following points.

1. Extending the runway will make for safer operations for all pilots, even those that can use shorter runways.

2. Fire fighting craft will be much safer, and efficient, with revised length and layout.

3. Use and improvements to the infrastructure is essential for the continued enjoyment and safety of the local businesses and

residents of the area, and is a sign of good government

4. The planning for future improvements at this time will mediate problems with land use, if any, in the future. We can't put

off good decisions for the community because they are difficult or not popular with a few people.

Thank you for your time,

Randy Hand
