**Subject:** airport

I urge you to support a safer and improved Ravalli County Airport. A safe airport welcomes people to the valley. It is a gateway to increased economic activity in the valley. It is also vital for SEAT Aircraft (Single engine tanker aircraft used fight forest fires) for safe takeoff fully loaded.

Moving the runway 400 feet East and 1550 feet North to move traffic pattern away for houses to the South of the airport and East of the high school may make the airport safer for the non-flying public. Finally, increasing the 14 million dollar yearly economic value the airport has provided Ravalli County benefits everyone. Thank you for your consideration. Aaron Alme
