Subject: Comment to county commissioners about proposed airport expansion

My name is rob mcLeod, and my wife (Linda Pietarinen) and I currently reside in ravalli county about 6 miles south of victor mt.

I'd like to register a comment against the proposed ravalli county airport expansion project. At a minimum, i believe a full Environmental Impact statement and analysis of the expansion project should be completed to assess the short and long term impacts of the project.

Without the formal EIS, i cannot support the expansion as i believe we do not have a complete understanding of the other options available to make the airport safe for landing aircraft. Further, I believe a full EIS would present county residents with a clear picture of the economic benefits and costs of the project.

Thank you, and if you need any other information from me to accept my comment against the proposed airport expansion project in it's current form, please let me know.
