Dear Mr. Norderud,

I can't understand why there is a debate over whether to improve the County Airport or not. The FAA and other groups have offered to pay for this. Why would anybody want to impede progress for this county? The airport was here long before all the protestors arrived. When looking at the "authors" of the newspaper articles opposing the airport, it seems to me that these people just jump from one "issue" to another to stir up controversy in the county. Please vote in favor of the airport improvements.

Delia Kelly
