Ravalli County Commissioners

--	--	--	--	--

Gabe Leonardi
Commissioner of
Daly Ditches Irrigation
District

July 25, 2014

Dear Commissioners,

I am writing this letter on behalf of Daly Ditches. It is my understanding that you are wanting to expand the airport runway to the east, which will put the runway dangerously close to the existing structures of Daly Ditches. I am concerned about the safety of the employees of Daly Ditches working too close to low-flying aircraft.

Daly Ditches Irrigation District has always been able to burn brush in our yard and would like to continue to burn. Our brushpile would be at the end of your new runway, causing smoke for low-flying aircraft.

All structures should be at least as far away from the runway as all existing hangars.

If any of our operation is condemned, we must be provided with new property, shop, and office so we can continue to serve our users.

For these reasons, if the runway is moved closer to Daly Ditches, I am opposed.

Sincerely,
Gabe Leonardi
363-3240
