I called Mr. Goeltz this afternoon and answered his question.

Jeff

Subject: 1931 meridian

So wondering, do the commissioners approve roads to get paved? why is Meridian from victor to bear creek not? we have gravel trucks coming down a small road to the west that just ruins everything.

I'm sure Jeff is my person, but just like the santa clara valley water district(san jose) where i came from of the 7 board members 4 votes were needed.

1. Are there plans to pave this unpaved part?
2. The gravel pit waters the road maybe once every two weeks? and do not follow the speed limit. However rod clark trucking paves the road and grates it and his trucks drive 20mh. So he does his part should the pit be watering the road daily to keep the dust down?
3. would i need to start at roads and grounds or with the city of either victor or hamilton about the road getting paved? Or is this the right place?
4. I am voting and your answers can help.

thank you
