Subject: Floodplain Regulations

I would like to express my support for the current floodplain regulations. I do not want the county tax payers to have to support property owners that build in the flood plain. In many areas of the U.S., people have been allowed to build in the floodplain. When problems occur, it is always the tax payers that are asked or required to help pay for the problems.

Please protect the Ravalli County taxpayers by keeping the current floodplain regulations in effect.

Thank you,

Jim Campbell
