Subject: Floodplain Regs

Hi Glenda, once again I am unable to attend the meeting today but please relay to the commissioners:

I strongly oppose any change to floodplain regulations that would allow new or expanded development within the floodplain.

The Bitterroot River moves all over the floodplain. Common sense needs to prevail. Water quality, safety, scenic beauty, wildlife and fish habitat, and financial liability (when developments are undermined by the river), all need consideration. Liberalizing floodplain development regulations does not make sense and would cause irreparable harm to our river and valley. Thank you for your consideration.

Sincerely,
Judith Fraser 338 Cooper Lane, Hamilton, MT.
