**Subject:** Bitterroot Floodplain Amendments

Thank you for allowing comments regarding the Bitterroot Floodplain Amendments. I am strongly against these amendments.

As an individual that utilizes the rivers for general recreation, family recreation, and commercial use I view these amendments as very detrimental to the overall health of the Bitterroot River. Allowing more access to development within the flood plain fringe on such a dynamic river system is only asking for further degradation of the very reason many of us live here, and why many people travel from across the country and world to this area.

Your vote last night to allow this to pass against overwhelming public opposition needs to be reconsidered.
