Subject: flood plain regulation

Dear County Commissioners,

It has been very informative for our community to watch the fancy dancing you have been pulling off around the floodplain regulation changes. Some of us already had seen your self-serving motivations regarding previous decisions. Now, I would say a very clear majority know that is what's happening. The deception and disingenuous process is breath taking. Who do you represent? I have been corrected by right wing folks that we do not have a "democracy" but rather a representative form of government. This latest song and dance makes it clear we do not have even that. Apparently, at this time, before the final vote, nobody is representing the majority of residents in this county. So, who do you represent? It looks like you represent only your own personal gain and personal ideology, which may be redundant.

Erosion of faith in 'our' government is increasing dramatically. It is clear that science does not matter to you nor do the wishes of the people who elected you. I can only hope for a backlash from a broad spectrum of disenfranchised residents.

I think you may have set a big one up.

Who amongst you might decide to actually represent the disenfranchised majority?
