Subject: Building on the Flood Plain

PLEASE reconsider your previous vote and do not allow building on the Flood Plain!!!! The reasons are plentiful and have already been stated quite eloquently. "The Bitterroot River is a highly dynamic river and moves all over the flood plain. Building in this area WILL lead to flooding, and people rip-rapping to protect their homes. This will channelize and degrade the river. An array of scientific studies and experts have testified that this move would seriously impact our river."

Please be respectful of the voice of the people you represent.

Sincerely,

Karla & John Schiever
