

The Pothole

Last fall I went to the Ravalli County Commission with a letter and petition.
It was about the road on which I dwell which really had gone to hell.
We discussed the method of repair which presently would lead one to despair.
I was told that it would be addressed after repair methods were reassessed.
One morning the road crew appeared, they would do it right, I had been assured.
The near annual token of pothole patch proved to be another bad batch.
For within five weeks the potholes reappeared after seeing again the old method I had feared.
There are many adages that attest that doing a job right the first time is the best.
Placing asphalt in a hole full of rubble will only lead to future trouble.
Trimming and sealing the sides of the hole would also help we all know.
The taxpayer will sadly continue to pay for the County Commissioners who will continue as they may.
