GLEND A,

Montana Liquid and Gas Pipeline Association (MLGPA) is excited to announce our 9th year of Pipeline Awareness! These meetings, sponsored by the pipeline companies, are for pipeline emergency preparedness. **YOU and ALL members of your organization** are invited to attend a **FREE** pipeline safety emergency response tabletop exercise. In cooperation with the Office of Pipeline Safety (OPS), Department of Transportation (DOT), Montana Utility Coordinating Council (MUCC), Underground Utilities Locator Center (UULC) and Pipeline Association for Public Awareness (PAPA), pipeline operators are sponsoring meetings at various locations throughout the state. A **meal and a case study** will be provided to educate members of your agency in the efforts and coordination needed by local emergency responders and pipeline operators.

These meetings will provide you with important response information to assist in managing a potential pipeline emergency. This includes familiarization with the pipeline facilities in your area, emergency pipeline contact information, available educational resources and the expectation for all parties to provide the highest level of public safety. Information about these meetings and additional online training opportunities can be found at www.pipelineawareness.org/mlgpa.

Montana's pipeline operators are committed to establishing and maintaining liaisons with emergency response officials and public officials. Thank you in advance for ensuring at *least* one representative from your department/agency attends a meeting.

The following items are enclosed in this official invitation from the MLGPA:

- A poster to place in your office listing meeting dates, times, and locations for 2015 MLGPA meetings.
- An RSVP for **members of your organization** to complete via website, fax, phone, or e-mail.

MLGPA Member Companies will provide you and your representatives:
