**Subject:** Re: Commissioner Meeting April 20th, Monday at 0915 a.m.

Dear County Commissioners,

I hereby resign my position on the Weed Board immediately. The Weed Board is a very worthwhile and necessary entity given the predominance of rush skeleton weed in Idaho. The fires in the Bitterroot Mountains in both Idaho and in Montana have allowed an opening for this particular weed that could be a real threat to agricultural vitality in Montana. The members of the board are quite aware of this threat and I believe will do a good job of stopping a critical mass introduction of this weed if given sufficient funding to do so. Mr. Gill of the Forest Service is a very good resource whose assistance is crucial to the Weed Board. I would also suggest that the Commissioners have the Weed Board investigate using the the Knapweed beetle program to bring in more revenue to pay for Weed Board activities.

I wish I felt that I could continue to sit on this board as I did enjoy it. However and quite frankly, I really want nothing to do in any recognized capacity with the three County Commissioners who were not elected for the first time this last election. I thank you for this opportunity, but I can't in good conscience participate in a constructive manner with Commissioner Iman who is the Commission representative on the Weed Board. Interestingly enough and despite all I have come to know, J.R. Iman is a rather interesting fellow.

Sincerely,  
Rob Myers
