Hi Glenda,

I am writing to join in the hundreds of people who want to see Daly road repaired. We travel that road 5 days a week for school and sometimes 2 or 3 times a day for sports. Earlier in the school year there were so many pot holes that it was hard on our vehicles. People would swerve or drive around to avoid them and cause traffic delays and frustrated drivers. When it was wet people on the sidewalks, walking and riding their bikes to school, would get splashed from the water sitting in the holes. They have since patched the holes but that just made for rough, uneven pavement and now even that temporary fix is starting to break down and wear away.

Please, please let our commissioners know that this should be a priority for our road department!

Thank you,
Cathy Orr

Hi Glenda,

I also wanted to say to let the commissioners know that this isn't a good reflection on our community to have the main road to our Elementary school in such poor repair. We are proud of our city and have quite a few visitors, especially in the summer. We want the appearance of our town to reflect that we are proud of our community and our schools by maintaining our buildings, roads and surroundings.

Thanks again,
Cathy Orr
