Ravalli County Commissioners
Administrative Building
Hamilton, Montana 59840

Subject: Road Improvement Schedule

Greetings:

The publication of a seven-year road pavement improvement schedule has prompted this letter and attachments. Please make sure that this becomes part of the public record regarding your consideration of the proposed schedule. I had hoped to deliver this sooner, but have been called out of state for a family matter.

I am writing this letter to the commission because there has been a change of commission membership since June of 2014, the date of the letter and petition prepared at that time. (See Attachments) For the record my physical address is 246 Daly Avenue and has been for the past ten years.

The new commission members may not be aware of the 300+ petition signers asking for a review of the plans for resurfacing Daly Avenue in 2014. According to the suggested plan, Daly Avenue isn't scheduled for paving until 2018.

The continuous and congested use of Daly Avenue has made a grid lock on Daly Avenue twice daily because of the drop off and pick up traffic at the school. Twice a day the traffic enters from Kurtz as well as parking on Daly to drop off and pick up students. Exit is to and via Daly Avenue. To cite the letter of June 15th, usage includes a change in number of students at Daly School from 359 last year to 431 this year: some 72 students and according to the Hamilton school district, 73 staff, and 45 new families from Grantsdale School. Activity increases from spring baseball activities, soccer, gym rental on weekends, school board meetings, parent teacher conferences, baseball on weekends and evenings.

I am unaware of any other road in the valley that has as consistently so much daily traffic -- resident traffic, school traffic, delivery vehicles, school

busses, and parents/guardians chauffeuring students. This does not even mention any emergency vehicles that have to get through on a call. .

It would seem appropriate that the county's Secure Rural Schools Account should be used first at the Daly School, rather than some other lanes located throughout the valley with only a fraction of continued usage.

This last year one commissioner listened to the request of the signers of the petition, came out, drove the street and was instrumental in getting it patched, because it was a safety hazard as well as being a road disaster. While this is a stopgap measure, the concern of lack of care of Daly Avenue by the Road Department is continuing. According to memories of people who have lived on Daly for many years, their recollection was it was paved approximately in 1949. The last rolled payment was done in 1992. The repairs on the road have continued annually, and 2014 was no exception. Whether it was paved 66 years ago, or rolled 23 years ago, this is not acceptable maintenance or upkeep. Patching has become an annual happening.

I am encouraged to learn that the road department is preparing a plan of road repair and maintenance, but I take exception to the continued delay on Daly Avenue that is scheduled for at least three more years.

As I looked over the list in the Bitterroot Star, I do not see an explanation for making the proposal. Communication by the road department is an issue. As a county department, they have a responsibility of communicating and explaining their actions to the general public at least via to the governing body in the county.

Please understand the frustration and apparent disregard to the public request as to why Daly Avenue's repair is still 3 years in the future when the need for paving is already long overdue. Much has changed and the use is not going to diminish in the near future. Please suggest that Daly be repaved in 2015/2016. Thank you.

Sincerely,

Larry A. Strate, J.D.

June 15, 2014

Mr. Dusty McKern, Manager
Ravalli County Roads and Bridges
244 Fairgrounds Road

Hamilton, Montana 59840

SUBJECT: Daly Avenue from Marcus Street to Golf Course Road

Greetings:

We are asking for a review of the plans for resurfacing Daly Avenue which we understand is some 5 years in the future according to Mr. McKern and Commissioner Iman. The change of circumstance is the increased traffic usage due in part to the closing of the Grantsdale School and also involves the growth east of Daly and south of Daly who use Daly Avenue to avoid 5 traffic lights on U.S. Highway 93. Usage includes a change in number of students at Daly School from 359 last year to 431 this year, some 72 students and according to the Hamilton school district, 73 staff, 45 new families from Grantsdale School. Activity increases come from: spring baseball activities, soccer (Spring, Summer, Fall), gym rental on weekends, school board meetings, parent teacher conferences, Bitterroot Coop people—physical therapists and speech therapists etc., we don't want to forget all the personnel who work at the school, nor the Administration Building personnel across from the school. Similarly we are asking for a traffic count, and it needs to be done while school is in session, not during summer recess. We are also asking you to make the results available to us and to the County Commissioners.

The reasons we are asking for reconsideration include the winter weather breakup to the asphalt because of frost bumps, pot holes, pot holes in patched asphalt, and breaks in the asphalt. On June 4th, Commissioner Iman and Daly resident Larry Strate drove the Daly Street. Strate had contacted Mr. Iman by phone earlier. The conclusion was that the pot holes needed to be fixed, so did the frost bumps, and cracks and crevices. Because of the narrow street, the edges needed to be graded and repaired, as that's where the drivers have to drive to accommodate two lane traffic. We appreciate Mr. Iman's visit to the Daly Avenue, and extend to you or any of your staff, an invitation and as well an invitation to every County Commissioner to drive through the neighborhood. The street is a safety hazard, with cars dodging potholes and kids. Accidents just waiting to happen! Just watch out for the potholes!!, the swerving cars and the students either walking to school or riding bicycles..

Mr. Iman said the potholes, frost bubbles and road side would be fixed. We inquired the same of the Road Department and only received a generic "soon". – hardly an acceptable response. It makes you wonder what kind of scheduling does the Road Department have? What's wrong with sharing that information with the residents in the county when asked about repair work?

Inquiry was made about Kurtz Lane, and the increased traffic flow apparently changed it's priority. The same argument can be made regarding the exit flow on Daly from the entrance flow on Kurtz. Revisit your priority list as changes in circumstances regarding traffic count, usage and routing have placed a greater burden on this street than most others.

If you don't reside or work on the street, you probably would miss the need for safe access and egress for ambulance, fire truck and any other emergency vehicle such as both county and city police departments as well as a safe place for those who live on Daly Avenue. We can't forget the Montessori School, its staff and students, Apartment complexes that only use Daly Avenue for travel, the Daly Condominium Association. In an unscientific survey, an evening count approximated \pm 140 vehicles parked at residences and apartment complexes. This was a count taken on the evening of June 5, 2014. Again, this is in addition to the school traffic. What we have ended up with is an unsafe, unhealthy and potentially dangerous situation. If an ambulance or county/ sheriff, or fire department or any other emergency vehicle needs to respond, it has to be able to do so. Currently that scenario is questionable. We are also asking for an inspection of the road. .

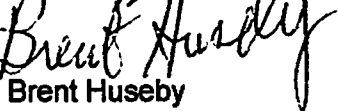

In response to the observed traffic congestion, Daly school has already changed its traffic pattern in order to accommodate the associated problems of an increased overcrowded traffic flow; they have placed crossing guards on Daly, and rerouted drop off and pick up locations by an entry from Kurtz to an exit on Daly .

We understand the concept of budget shortfalls, of the miles of road in the county that need to be maintained, we also understand that asphalt allocation has not yet been finalized, nor has a review of the priority list for this year been completed.

The undersigned have private residences on Daly or conduct business at that location to include staff and teachers and administrators in the School District, the Fire Department, the County Sheriff's Office, Hamilton City Police, and Marcus Daly Emergency Services.

We are also requesting an audience with the County Commissioners to present our request for reconsideration, review of current priority list, and traffic count, hopefully with a result of a higher position on the priority list.

Sincerely,

Brent Huseby
